- › Standby mode and auto setback conserves energy, protects equipment
- › Password-protected to preserve settings
- › Automatic set-back saves energy and preserves tip

Get It Soldered

Weller Efficiency – the most powerful station in its class, now in a new design

The digital 70 W WE soldering station is 40% more powerful than other stations in its class. This allows the iron to heat up faster and to provide a faster recovery time – gets the job done quicker with more efficiency and precision.

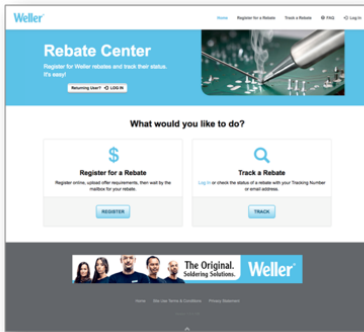

Here's how it works. Go to **weller.4myrebate.com** to visit our Weller Rebate Center.

You will be asked to upload trade-in product information, new product serial and barcode, as well as proof of purchase of your new WE1010NA station. See complete terms and details on redemption site.

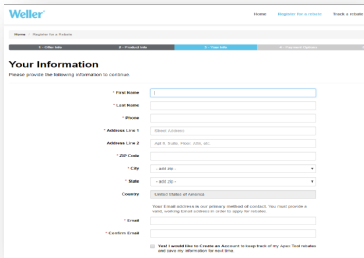

This offer good August 1st through December 31st, 2018

Offer valid only in USA and Canada.

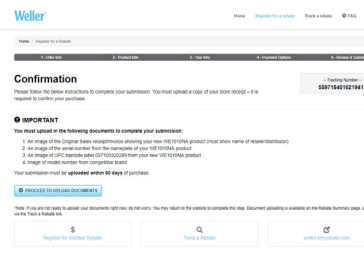

Steps to activate rebate

1. Within 60 days of purchase, submit your claim for rebate at: weller.4myrebate.com

2. Follow the steps to fill out customer information, product information and reseller information.

3. Upload documentation:

- Receipt/invoice
- Serial number
- UPC Barcode
- Image of competitive product

4. Expect to receive \$20 prepaid credit card in 5-7 weeks of submission date.
