

HAMMOND
MANUFACTURING®

MODIFICATION GUIDE

Why Hammond?

Modified or customized enclosures are an excellent way to build relationships with customers and add value.

The Hammond Advantage:

- Thousands of standard enclosure designs
- The industry's largest enclosure inventory at your disposal
- A factory entirely dedicated to enclosure modifications
- An experienced team ready to take projects from design to reality .

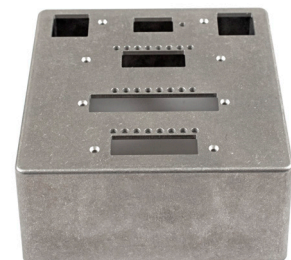

Hammond's Colby Drive facility is dedicated to modifications.

Types of Modifications?

Depending on the type of enclosure, here are some examples of the services we provide:

- Milling of Holes & Cutouts
- Tapping & Countersinking
- Silk Screening Logos and Text
- EMI/ RFI Shielding
- Special Colors
- Hardware Installation ("Pems")
- Ask about other services at **ModShop@hammfg.com!**

MODIFICATION GUIDE

Step 1.....

Get A Quote

Send your quote request to **ModShop@hammfg.com**.
Be sure to include all pertinent information such as:

- **Customer drawings, diagrams, or sketches.**
- **Artwork for silk screening (if applicable)**
- **Detailed descriptions**
- **Shipment quantities**

Most of the time, quotes only take a couple hours. We'll be sure to respond as fast as possible if we have any questions.

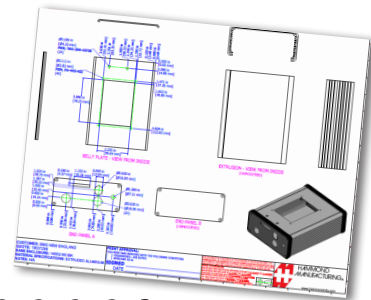

On your quote you'll receive a **unique custom part number** which you'll use when placing the order. That part number is just for your customer's specially modified box.

Step 2

Place an Order

When you're ready to place an order, send it to **ModShop@hammfg.com** and we'll get started!

Make sure to include the custom part number on the order. Also make sure to include a street address where any samples should be delivered.

Step 3.....

Make Sure It's Perfect

Every order is different, and will have different requirements. Hammond ensures that each enclosure fits perfectly before we produce an order. Most first-time orders will include:

- Approval drawings
- Machined samples
SHIPPED OVERNIGHT!

Step 4

Let's Do It Again Soon!

We'll keep the design information on file forever so it'll be ready to go next time you need enclosures.
