Watertight Wiring Devices and Accessories

Application Guide

Food and Beverage Processing

Rated to withstand harsh, wet environments common to food and beverage processing facilities.

Outdoor Entertainment

Superior sealing and strain relief assure that power is delivered consistently when the show must go on.

Construction

Outdoor electrical power is subject to rain, snow, ice, etc. The tongue and groove seal maximizes integrity against the elements.

Agriculture

Mud, standing water and general abuse are no match for the rugged engineered thermoplastic materials.

Water Treatment

Elastomeric construction and stainless steel components withstand the most abusive environments.

Municipal

Useful for keeping mobile battery operated equipment at full charge so its available for use when needed.

Factory

Ideal for delivering power to all types of industrial machinery and equipment in the factory environment.

Temporary Power

Ideal for use with generators and temporary service. Meets or exceeds all NEC® requirements.

NEC® is a registered trademark of National Fire Protection Association

Watertight Plugs and Connectors and Weather Protective Receptacles

Straight Blade and Twist-Lock® Devices

Plugs

- Resists chemicals
- Exclusive triple by-pass sealing system
- Corrosion-resistant nickel plated blades and stainless steel captive assembly screws
- NEMA 4, 4X, 6 and 6P Rated
- IP65, IP66, IP67

Connectors

- Double insulated elastomeric cover and thermoplastic body for extra safety and water resistance
- Ergonomic industrial grip
- Easy-clean body styling
- Closure cap seals out water and dirt when not in use
- NEMA 4, 4X, 6 and 6P Rated
- IP65, IP66, IP67

Receptacles with Weather Protective Lift Cover

- Impact resistant PBT housing with stainless steel hardware
- Weather resistant elastomeric seal
- Large wiring chambers for easy termination
- Mounts to FS and FD boxes

Weather Protective Accessories

Portable Outlet Boxes and Covers

Weather Protective Covers

- Creates a weather protective seal for standard single receptacles
- Weather resistant elastomeric seal
- Impact resistant housing and stainless steel hardware
- Mounts to FS and FD boxes

Portable Outlet Box

- Large internal cavity for easy wiring of two duplex receptacles (not included)
- Self closing flip seals provide protection against moisture when closed
- Compression neoprene bushings seal out moisture
- Impact resistant TPE housing

NEMA Type 3R Weather Protective Lift Covers

Description	Catalog Number
Lift cover assembly; for use with 15A or 20A straight blade receptacles and 15A locking receptacle; receptacle not included	6500H
Lift cover assembly; for use with locking 20A receptacles; receptacle not included	6700H
Lift cover assembly; for use with locking 30A receptacles*; receptacle not included	6800H

*When mating with 28W08H plug, use 6700H.

Watertight Wiring Devices and Accessories

Specifications

Materials

Plug/Connector

Part	Materials
Blade/Contact Carrier	PBT Thermoplastic, yellow
Terminal Retainer	Polycarbonate, clear
Housing	Thermoplastic Elastomer, yellow
Housing Insert	Polypropylene, natural
Strain Relief Nut	PBT Thermoplastic, gray
Grommet	Thermoplastic Elastomer, various colors
Ferrule	Polypropylene, natural
Blades/Contacts	Brass, nickel
Terminal Screws	Steel, chromate
Terminal Screw Size	#8-32
Body Holding Screws	Stainless steel
Drive Screws	Steel, chromate

Flip Lid Assembly (see connector for device materials)

Part	Materials
Flip lid and cover plate	PBT Thermoplastic, yellow
Sealing Collar	Thermoplastic elastomer, yellow
Mounting Plate	Stainless steel
Spring	Stainless steel
Hinge Pin	Stainless steel
Mounting Screws	Stainless steel

Portable Outlet box and Accessories

Part	Materials
Box Enclosure	Thermoplastic Elastomer, yellow
Strain Relief Nut	PBT Thermoplastic, gray
Grommet	Thermoplastic Elastomer, various colors
Ferrule	Polypropylene, natural
Strain relief insert	Nylon, yellow
Locknut	Steel, zinc plate
Threaded inserts	Polypropylene, natural
Strain relief wire	Brass
Duplex receptacle screw	Stainless steel
Cover plate screws	Steel, black oxide
Cover Plate	Nylon, gray
Flip covers	PBT Thermoplastic, yellow
Flip cover seal	Foam rubber, black
Cover plate Spring	Stainless steel
Hinge Pin	Aluminum
Hinge bracket	Stainless steel
Rivets	Brass

Listings (Plug/Connector and Flip Lid Assembly)

Listed to UL498 and CSA C22.2 No. 42.

Certified to CSA C22.2 No. 42.

Meets or exceed NEMA WD-1, WD-6 & ANSI standards

Performance

Electrical

Dielectric Voltage

Connectors:	2000VAC if rated 300V or less 3000VAC if rated above 300V
Plugs:	2500VAC if rated 300V or less 3500VAC if rated above 300V

Max Working Voltage

As marked

Current Interrupting

Rated for current interruption per UL498

Temperature Rise

30°C max per UL498 at rated current

Mechanical

Cord and terminal accommodations:

Plugs and Connectors

15A and 20A straight blade and 15A locking	Types S, SO, ST, SJ, SJO, SJT 18/3 to 12/3, .300 min. to .625 in. max (7.6 to 15.9 mm) dia.
20A & 30A 3-Wire locking	12/3 SJ, 14/3 S to 10/3 S (.475" to .720") (12.1 mm to 19.2 mm)
20A 4-Wire locking	14/4 S to 10/4 S (.560" to .775") (14.2 mm to 19.9 mm)
30A 4-Wire locking	12/4 S to 8/4 S, 6/4 MSHA (.640" to .930") (16.3 mm to 23.6 mm)

Receptacles – use solid or stranded building wire or flexible cord only as outlined below:

All 15A and 20A straight blade	18 AWG to 12 AWG
20A locking and 30A 3-wire	14 AWG to 10 AWG
30A 4-wire	12 AWG to 6 AWG

Portable Outlet Boxes

All	16/3 SO through 12/3 SO cord
Wiring Volume	Standard - 14.5 cu. in. Deep - 17 cu. in.

Terminal Identification

Ground-Green, Neutral-Silver/White, Hot(s)-brass

Environmental

Moisture Resistance

NEMA 4, 4X, 12, 6, 6P
(Plug and Connector Only)
NEMA 3R (Flip lid assemblies)

Flammability

NEMA TYPE 1 (Portable Outlet Box)
UL94V0 (boxes and wiring device interiors)
UL94V2 (cover plates)

Operating temperatures

UL94HB (wiring device housings, flip lid seals)

UV resistance

-40°C (without impact) to +60°C continuous.
All exposed materials are UV stabilized

Also available from Hubbell...

**IEC Watertight
Pin & Sleeve**

Available in 20A to 100A, the one piece nylon housing provides maximum impact resistance. Ideal for washdown and outdoor environments.

**Circuit-Lock®
Switched
Enclosures**

NEMA 4X fused and unfused disconnect switches are used primarily for disconnecting motor loads in wash down and corrosive applications.

LINKOSITY®

Power distribution components up to 30A provide maximum flexibility to make moves adds and changes. All connections are UL Type 4X.

Panel-Safe™

Control cabinet power and data access ports. Eliminates the need to open the cabinet door. Stainless steel/NEMA 4X enclosures. Configure any type of data connector.

Pendant Stations

Hubbell offers user ready 2, 4, 6, and 8 button single and 2- speed full size and compact pendant stations for use on cranes and hoists in NEMA Type 3R and 4X environments.

Grips

Kellems® Grips solve most wire and cable management problems. Available styles include Strain Relief, Pulling, Support and Fiber Optic.

Cord Reels

Retractable cable management reduces trip hazards. Watertight enclosures available to protect reel components from hosedown and corrosion.

Single Pole

300A and 400A plugs, connectors, receptacles and accessories provide a UL Type 4X connection for temporary power applications.

Spider Box

Temporary power distribution boxes extend power from building service or portable generators. Design to withstand abusive environments. UL Type 3R.

**GFCI Line
Cords**

Portable GFCI line cords provide ground fault protection for both indoors and out. Available in either manual or auto set with lengths of 18", 6' and 25' available.

GFCI Module

The 20A GFCI module can be panel or box mounted for protection of downstream wired receptacles or equipment. The GFM20 features a high impact, UV resistant Type 3R housing with manual set.

TrukTrak®

Non-metallic modular cable protectors safeguard electrical cables and cords from vehicle and pedestrian traffic. TrukTrak® is ideal for industrial environments using heavy trucks and fork lifts.
