

## EC Declaration of Conformity - CoC

### RECOM "Green Initiative" to ban Halogens, Chlorine and PVC materials

A growing concern in the electronics industry that halogenated plastic materials can release toxic and corrosive gases when ignited by a fire has forced many governments, businesses and local authorities to ban the use of Halogens, Chlorine and PVC in electronics systems.

The Halogen-Free definition by the IPC-WP/TR-584 white paper (published in April 2003) states: "Halogens are the Group 7 elements in the periodic table and include fluorine, chlorine, bromine and iodine.

Electrical and electronic products may be considered 'halogen-free' if they are assembled without the intentional use of these elements in the raw materials and these elements are not intentionally present in the end product. The proposed industry standard for incidental occurrence of chlorine and bromine in electronic base materials is 0.15% maximum total chlorine plus bromine as defined by the international industry standard IEC 61249."

RECOM hereby declares that all of their products are Halogen-, Chlorine and PVC-free.

### Issue Date

24<sup>th</sup> Jan 2013

### Company Stamp and Authorized Signature

Steve Roberts, Technical Director

### **Banking information:**

Oberbank AG - BLZ: 15060 - Kto.: 171-0685.05  
IBAN: AT821506000171068505 - BIC: OBKLAT2L  
Volksbank e.G. - BLZ: 50592200 - Kto.: 2346001  
IBAN: DE30505922000002346001

### **Legal form of the company:**

Gesellschaft m.b.H. & Co. KG - Sitz Gmunden

**Commercial register No.:** FN 242749i,

Landgericht Wels

UID (VAT): ATU 57585955
